Treatments

BOTOX®

This popular treatment relaxes muscles that create lines on the forehead, between your brows, crows feet area and banding in the neck. Lasts up to 3 or 4 months.

WRINKLE FILLERS/PLUMPERS

Introducing **Radiesse®**, the newest FDA filler, which lasts up to 1 year with instant results. Recommended for nasal defects, nasolabial folds, marionette lines, cheeks, chins, jaw lines and acne scars. The filler softens facial wrinkles and gives you a more youthful look. **Restalyne®/Juvéderm®** also available.

CHEMICAL PEELS/MICRODERMABRASION

By removing damaged layers of skin, this process improves uneven pigmentation and rejuvenates the skin.

ELOS FACIAL HAIR REMOVAL

The ELOS once-a-month technology removes all types of unwanted hair through a comfortable gentle treatment.

ELOS SKIN REJUVENATION

This process combines radio frequency with intensified pulsed light to minimize redness and brown spots, tighten pores and reduce wrinkles.

EYELID SURGERY

A proven method for the removal of excessive skin and repositioning of fat for upper and lower eyelids.

BROW & NECK LIFTS

Corrective measures for drooping eyebrows and excessive neck skin with minimal recovery time.

MINI LIFT/FACE LIFT PROCEDURE

The latest minimally invasive technique is used to redrape the skin and recontour the face.

RHINOPLASTY

A surgical procedure that modifies the nose for aesthetic improvement or to correct a deformity or injury.

PROMINENT EAR REDUCTION

A method to reset the ears to a more natural position.

HAIR TRANSPLANTATION

Micro-grafting and follicular grafting techniques utilized to achieve the most natural look.

ACNE

The latest intensified light technology for facial acne.

SCAR REVISION

Softens, smooths and flattens scars, restoring skin to a normal texture.
